Mohamed Moheyeldin

Forward Deployed Engineer

Reston, VA 20191 | mohamedmoheyeldin.com | mohamedmoheyeldin.jobs@gmail.com | linkedin.com/in/moheyeldin | github.com/mohamedmoheyeldin

Professional profile

Forward Deployed Engineer on a VA healthcare claims platform, with 11 years in software and quality engineering across federal healthcare, banking, and e-commerce. Integrate claim-status APIs, ship React features, and build human-reviewed generative AI workflows with prompt engineering, RAG, and LLM evaluation for accuracy and hallucinations. Work with stakeholders from first requirements through demos and adoption.

Professional experience

Booz Allen Hamilton — Washington, DC

Forward Deployed Engineer (FDE) | Dec 2020 – Present

Customer: U.S. Department of Veterans Affairs (VA)

- Integrate claim-status APIs with health providers so VA staff, providers, and veterans see live status by role; created a claims framework that notifies the right party so claims keep moving.
- Built Data Generator & File Processing, used daily by the team: a full dev database or 10,000 records in under 5 minutes instead of hours; also built a Playwright framework.
- Work directly with VA stakeholders: define requirements, lead demos each release cycle since 2022, and join working sessions with claims processors and VA users on production issues.
- Enabled team-wide Tableau use; built VA and internal dashboards, now the main view of server and system health.
- Contribute React, TypeScript, and JavaScript features; trace data issues across frontend, backend, MySQL.

Chick-fil-A Corporate — Atlanta, GA

Software Engineer in Test | Nov 2018 – Dec 2020

- Investigated REST contracts, schemas, and data integration with Postman and reusable JavaScript tooling.
- Connected GitHub Actions to AWS EC2, S3, and Aurora test environments; troubleshot OIDC/Okta sign-in failures.

Ally Bank — Sandy, UT

Software QA Engineer | Sep 2015 – Nov 2018

- Translated banking requirements into acceptance criteria; used SQL and reproducible Jira reports to investigate data issues and verify releases across QA, UAT, and staging.

Selected projects

Claims Document Assistant: Claude API assistant: prompt-engineered extraction of 17 claim-PDF fields, rule checks, human review, and an eval harness. github.com/mohamedmoheyeldin/claims-document-assistant

Technical skills

Application development: React, TypeScript, JavaScript, Java, Reusable components

Data and integration: SQL, MySQL, JSON, REST APIs, Postman, Tableau, SQL Server, Oracle, MongoDB

Delivery and quality: Playwright, GitHub Actions, Git, Jira, Jenkins, AWS EC2/S3/Aurora test environments

Generative AI & agents: Claude API, OpenAI API, Azure OpenAI, LangChain, LlamaIndex, RAG, Embeddings, Vector databases, Prompt engineering, RAG evaluation (accuracy, hallucinations), Agentic AI, MCP, Claude Code, GitHub Copilot, VS Code, GPT models, Claude, Gemini

Education

Bachelor's degree in Computer Science | American College of Commerce and Technology | May 2014

Professional development

Claude Academy | Issued 2026: Introduction to Claude Cowork; Introduction to Claude Tag; AI Capabilities and Limitations; Introduction to Model Context Protocol; Claude Code in Action; Building with the Claude API

OpenAI Academy | Issued 2026: AI Foundations; Agents and Workflows; Applied AI Foundations; AI Leadership; Apply AI at Work Pathway Completion

Palantir | Issued 2026: Speedrun: Your First End-to-End Workflow; Foundry & AIP Builder Foundations Quiz

Scaled Agile | Issued 2021: Implementing SAFe Course (5.1)
